Hello Caitlin,

We have met with a new propose society – The Together society. They are a committee of three and have a genuine focus on building communities on campus for students that maybe have not found their feet through university. Their objectives for the year are to host different events such as get together, film nights, quizzes and more.

I believe that they can have a good impact on campus and have a good base for a society. My only concern is the amount of interest to join the society, they did not provide many names. I have asked them to go away and provide more before you meet with SAC – fingers crossed.

We also have another society that is up for adoption with a similar purpose, the Wellbeing Society. I have proposed a adoption and rebrand to become The together & Wellbeing society, which they were keen on but were going to get back to me on that. But I think that is something you and SAC could stipulate to them if you so wish.

I believe you next steps are to take this to SAC and let me/Mia know if they are approved/ not approved and we can begin that process

Kind regards
Nathan

Item B.4: Bollywood Society

Hi Caitlin,

Please see below the application for Bollywood Soc. It was a great meeting and the committee have taken some clear time to complete the application.

They have met each other through their course of Primary Studies and all share a common interest in Bollywood. They want to start this society to get other people together who are interested in Bollywood and also use it as a way of educating others about Bollywood. The President has already made a poster and handed out in her lessons which is where she has got the interested members from already.

They intend to meet and watch Bollywood films on screens and have Bollywood 'parties' sharing Bollywood and Asian food and listen to music from this culture. They have shown a keen interest in getting involved with Culture Days at the university. I raised the issues that we're currently looking into with food on campus.

Overall, a good application and I can't see any club/soc on campus that would affect this.

Best wishes,
Mia

Item B.6: Accounting and Finance Society (AFSOC)

Hi Caitlin,

Please see below the application for Accounting and Finance Soc. It was a great meeting Lois and the committee are really excited about this and have really thought about what they want out of the society and it is reflected in the form.

██████████ is no longer on the committee but is interested in being a member and ██████████ has offered to take their place as Social Secretary. The society was suggested by the faculty head of Business as a way to guide students in budgeting. The committee have then taken this idea and developed it. The society is more of a way to support students interested in a business career in developing themselves ready for future careers. This includes support and guidance on budgeting and finances. They also are very keen to develop partnerships with external companies in the business world. On top of this, they are interested in the social element of a society and want to collaborate with other societies in games nights and social sports. Through talking to students in lectures, they have already started to gain an interest in the society.

I have explained to them the situation with membership fees and they're going to discuss as a committee, if they are successful, whether the membership should be free or a low price.

Overall, a good application and I can't see any club/soc on campus that would affect this.

Best wishes,

Mia
