

Student Council Faces Policy

Proposer – Sophie Sinclair – Interfaith Officer

Union Notes

1. Not many students know about part time officers, either the roles they perform or the who is incumbent in each role
2. There are a lot of images of the President and Vice-President, both on campus and over social media
3. The Sabbatical often deal with a lot of student inquiries that are not entirely relevant to them, and could be dealt with the by the Part-Time Officers

Union Believes

1. That it is positive that there are lots of images of the President and Vice-President
2. That a wider awareness of the roles of part-time officers would both help part-time officers meet the time commitment that is specified in their Role Description and would alleviate work from the Sabbatical Officers
3. A wider awareness of Part-Time officer roles may also encourage more students to put themselves forward as a candidates
4. For this idea to work also requires all Student Council members to have professional-looking headshots taken, which can be done by the Union

Union Resolves

1. To mandate that photos of all part-time officers be placed somewhere visible in or around the SU offices
2. To post on social media about each officer, their role and what they have done over the past year
